## **Pest-Buda as a Serbian Cultural Center**

The lecture will present the case for Pest-Buda as a Serbian cultural center, not only for the Serbs living in the Habsburg Monarchy, but also for all the Serbs in general, in the first half of the 19<sup>th</sup> century. The availability of the printing press, accompanied by a small but rich Serbian merchant community, and the existence of central State institutions in Pest-Buda, all led to this urban area becoming a cultural center for the Serbs in general. Printed publications will be used as a source material, and the tools of digital humanities as an aid to visually depict the argument.

Tešíme sa na Vás!
